

Basic project 3

LANGUAGE OF THE PROJECT

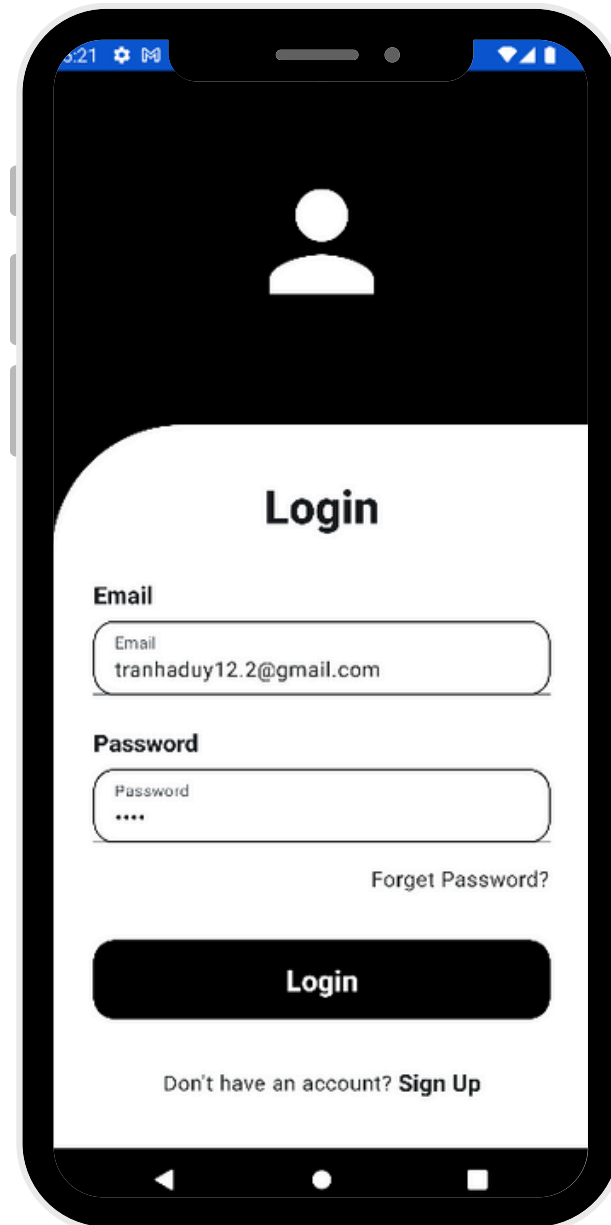

Kotlin is a cross-platform programming language developed by JetBrains. It runs on the Java virtual machine (JVM) and is widely used for mobile application development on the Android platform. Kotlin offers efficiency and flexibility, helping developers create high-quality and easy-to-maintain applications.

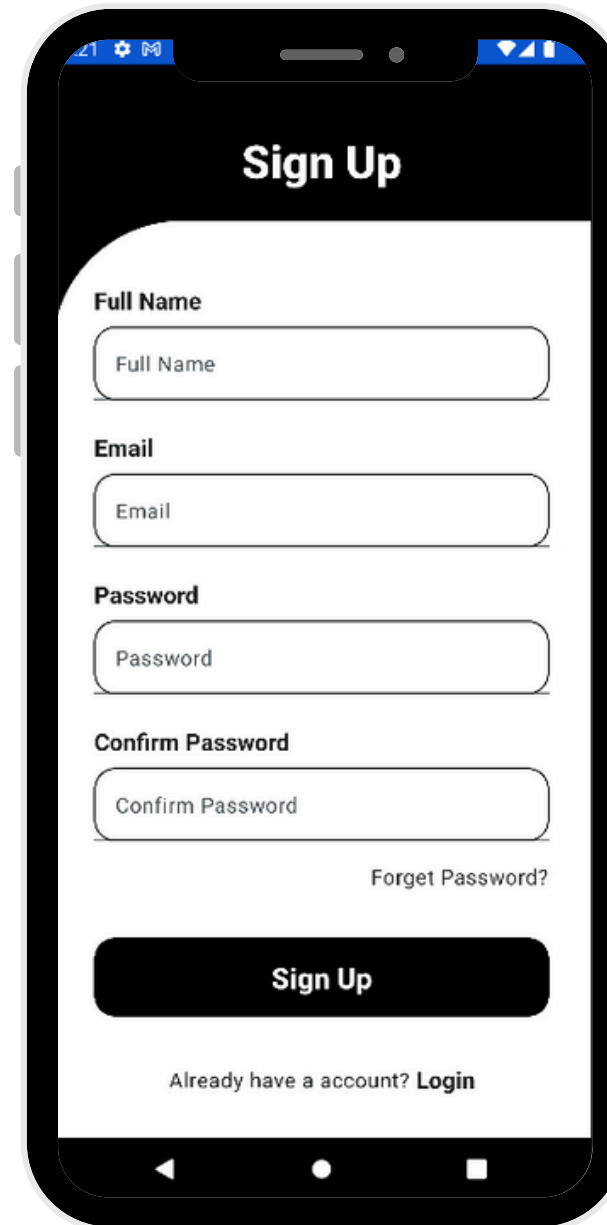

MySQL is a popular open source relational database management system (RDBMS) widely used worldwide. It provides a flexible and powerful approach to data storage and management. MySQL is commonly used in web applications, mobile applications, and many other applications due to its consistency, good performance, and easy scalability.

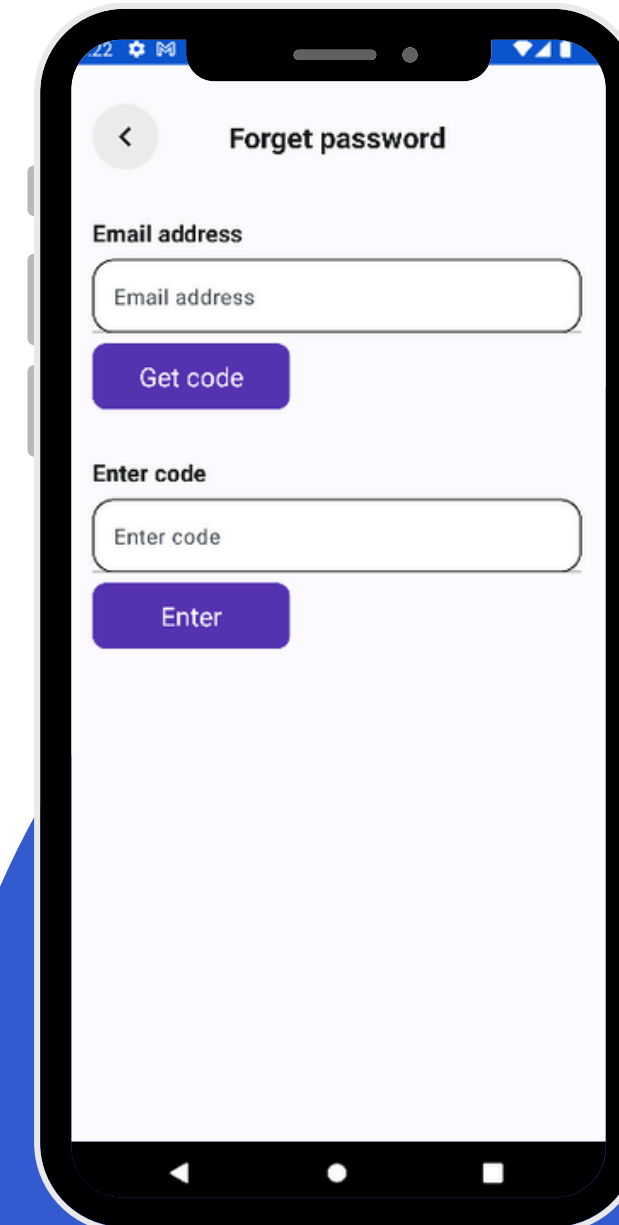

Login, Signup and Forgot Password

Mockup of a mobile app login screen. The screen has a dark header with a white user icon. Below the header, the word "Login" is centered. There are two input fields: "Email" with the placeholder text "Email" and the value "tranhaduy12.2@gmail.com", and "Password" with the placeholder text "Password" and four dots. A link "Forget Password?" is to the right of the password field. A large black button labeled "Login" is at the bottom. At the very bottom, a link says "Don't have an account? Sign Up".

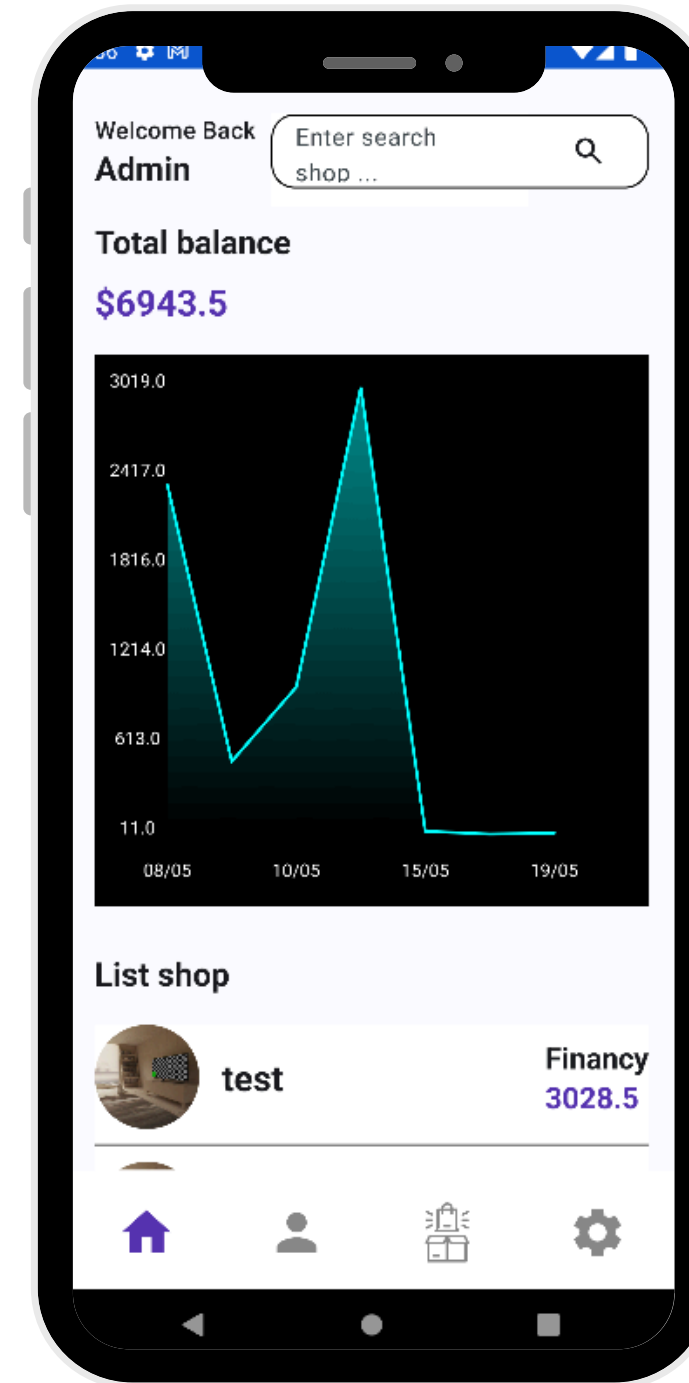

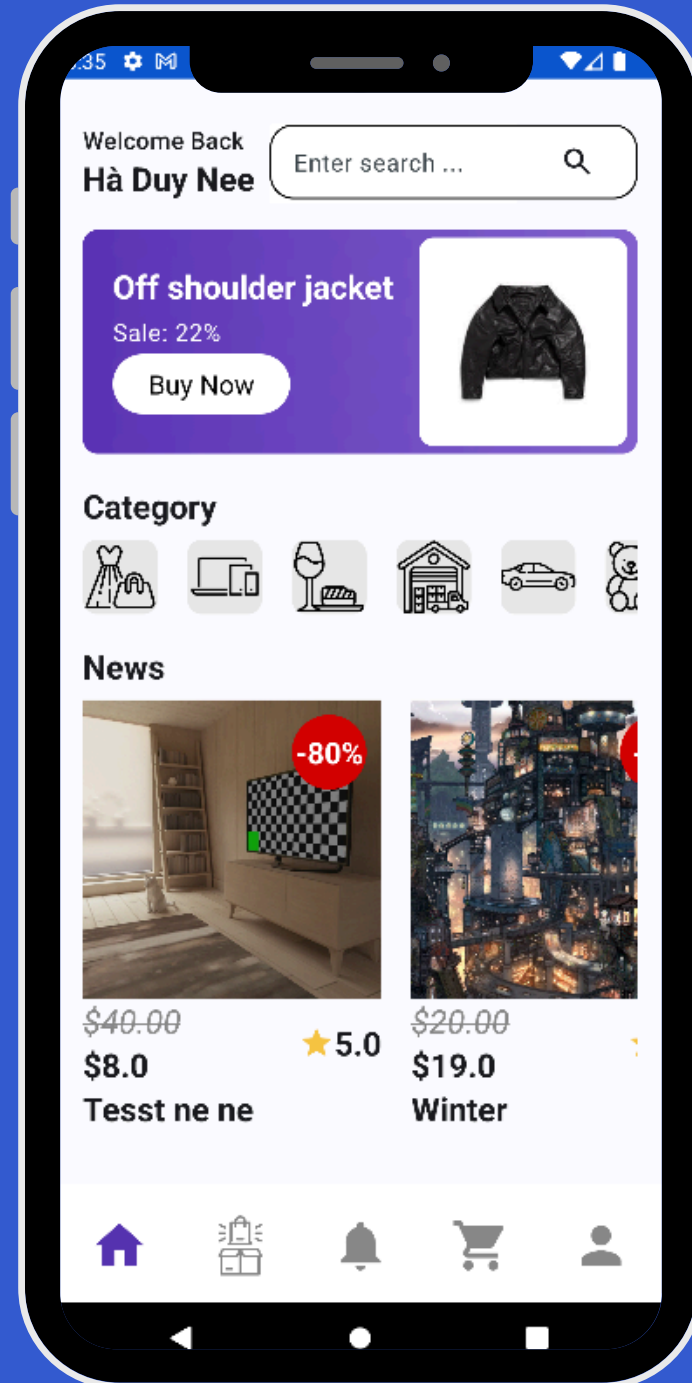

Mockup of a mobile app sign up screen. The screen has a dark header with the text "Sign Up". Below the header, there are four input fields: "Full Name" with placeholder "Full Name", "Email" with placeholder "Email", "Password" with placeholder "Password", and "Confirm Password" with placeholder "Confirm Password". A link "Forget Password?" is to the right of the confirm password field. A large black button labeled "Sign Up" is at the bottom. At the very bottom, a link says "Already have a account? Login".

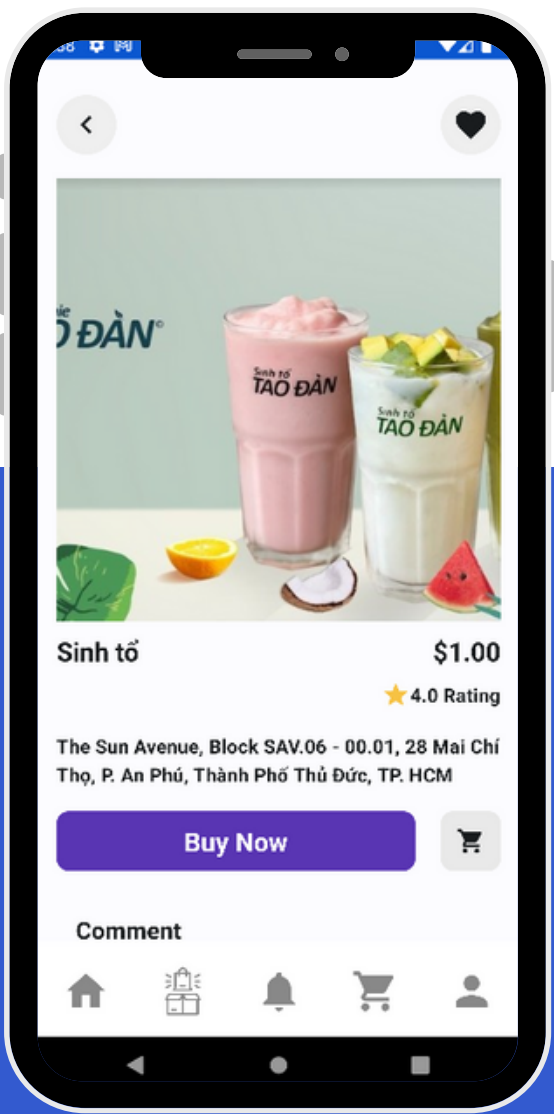

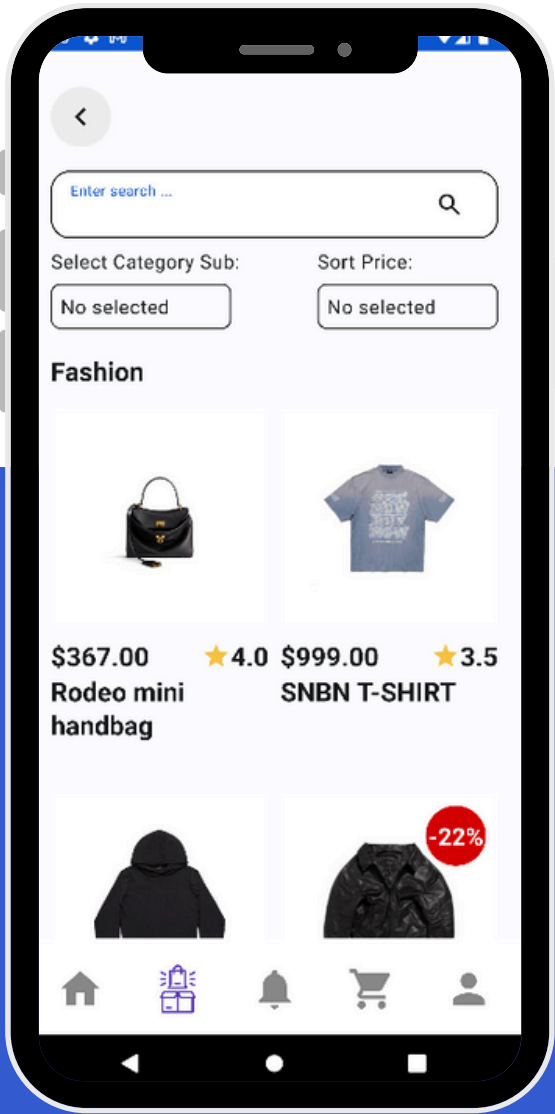

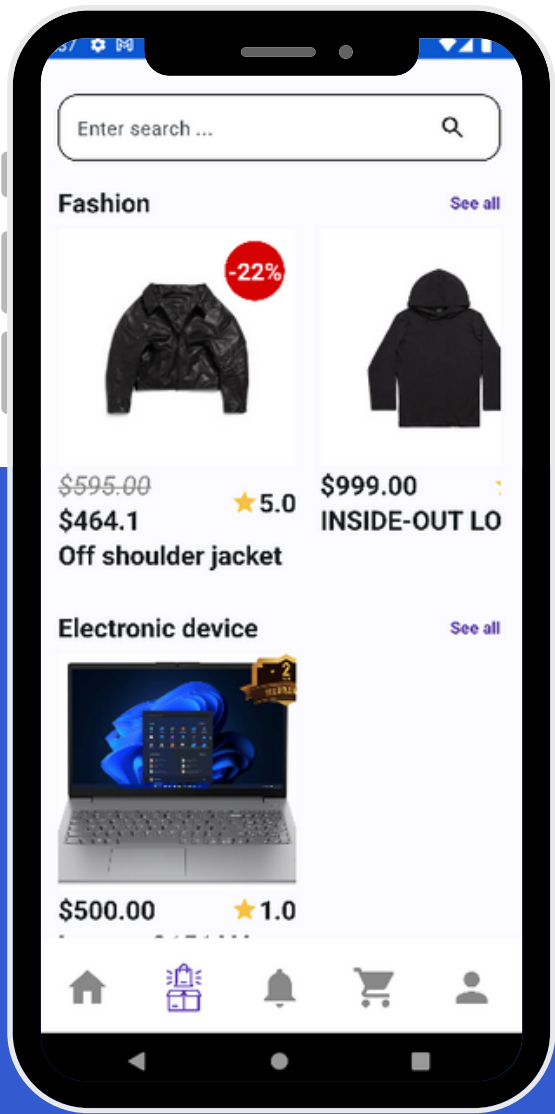

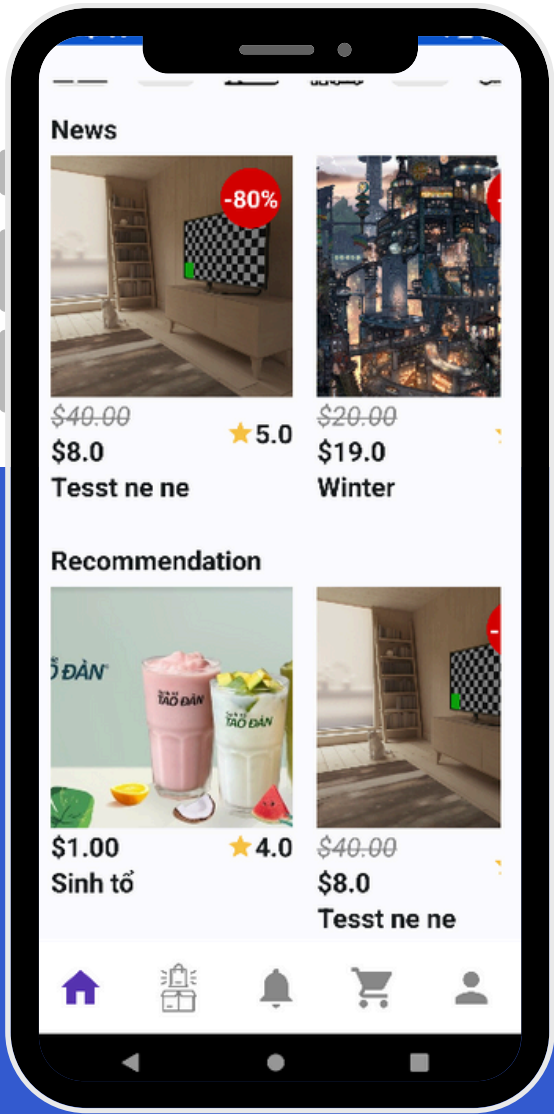

Mockup of a mobile app forgot password screen. The screen has a dark header with a back arrow and the text "Forget password". Below the header, there are two input fields: "Email address" with placeholder "Email address", and "Enter code" with placeholder "Enter code". A purple button labeled "Get code" is to the right of the email field. A purple button labeled "Enter" is to the right of the code field.
